This PDS is a summary of significant information about the Bennelong Emerging Companies Fund - Class A. The document contains a number of references to additional important information (Additional Information Booklet) which forms part of this PDS.

1. About Bennelong Funds Management Ltd

Responsible Entity

As the Responsible Entity, BFML is responsible for overseeing the operations of the Fund. BFML has appointed Bennelong Australian Equity Partners Pty Ltd as the Investment Manager of the Fund.

Investment Manager

Bennelong Australian Equity Partners Pty Ltd ABN 69 131 665 122 ('BAEP') is the Investment Manager for the Fund and is a Corporate Authorised Representative of BFML (AFS Representative No. 000328975). BAEP was established in 2008 and is led by Mark East (Chief Investment Officer). As the investment manager, BAEP is responsible for managing the investments of the Fund.

2. How the Bennelong Emerging Companies Fund - Class A works

How the Fund operates

The Fund is a registered managed investment scheme and is structured as a unit trust. Investors' funds are pooled and managed in accordance with a set objective and strategy (see section 3). When you invest in the Fund, you acquire Units. Each Unit entitles the Unitholder (i.e. investor) to a proportionate beneficial interest in the Fund's portfolio of assets, but not to any specific assets of the Fund. The potential for financial gain is made through investors receiving distributions and any increase in capital value of their Units (i.e. if the Unit price is higher than the price at which the investor purchased them). Investors can increase or decrease their investment by acquiring or disposing of interests (Units).

Unit prices

Generally, Unit prices are calculated for each Business Day at close of business on that day and are equal to the Net Asset Value per Unit. The Unit price for the Fund will vary as the market value of assets in the Fund rises or falls and as liabilities change. The value of your investment is calculated by multiplying the number of Units you hold in the Fund by the applicable Unit price at that time.

The number of Units you will receive when you invest in the Fund is dependent on the amount of money invested and the application price at the date of application. If you withdraw your funds, we will withdraw your Units based on the withdrawal price for the Business Day on which we receive your withdrawal request. Application and withdrawal requests must be received before 2.00 p.m. Melbourne time on that Business Day. Application and withdrawal requests for mFund investors are subject to different cut-off times. Please contact your broker.

Application and withdrawal prices for each Business Day are based on the Unit price for that Business Day adjusted for the buy/sell spread. Application prices are usually higher than withdrawal prices due to the buy/sell spread (refer to 'Buy/sell spread' in Section 6 of this Fund's Additional Information Booklet). The buy/sell spread is built into the Unit price and represents your contribution to the costs of buying and selling the underlying assets in the Fund. The current application and withdrawal price for the Fund may be obtained by visiting our website or by contacting our Client Experience Team.

A copy of the Responsible Entity's description of the formula and method it uses for determining Unit prices, the discretions exercised by the Responsible Entity and its nominees in respect of determining Unit prices, and the documented policy in respect of such discretions is available from the Responsible Entity free of charge.

Making an investment in the Fund

You can invest in the Fund by applying to the Responsible Entity directly for Units:

- by completing the Application Form accompanying the PDS or by applying online; or
- through a broker using the mFund Settlement Service. Refer to Section 8 for further information.

You can also apply indirectly for Units through an IDPS. Refer to 'Investing through an IDPS' in Section 2 of this Fund's Additional Information Booklet.

Minimum initial investment

The minimum initial investment for a direct investment in the Fund is \$10,000.

Additional investment

Direct investors can apply to add to their investment at any time by:

- submitting an Additional Investment Form available on our website or online via the Bennelong investor portal; or
- contacting their broker to increase their investment through the mFund Settlement Service.

The minimum additional investment in the Fund is \$1,000.

How to make a withdrawal from the Fund

Direct investors may request to withdraw all or part of their investment at any time by:

- submitting a withdrawal request on the Bennelong investor portal, or by submitting a Withdrawal Request Form, available on our website or by contacting Client Experience; or
- through the mFund Settlement Service, investors can withdraw from the Fund by contacting their broker or other financial services provider.

Unless the Responsible Entity decides otherwise, withdrawal requests must be for a minimum of \$5,000. Withdrawal requests received by the Administrator before 2.00 p.m. Melbourne time ('Deadline') on a Business Day will be withdrawn at the withdrawal price applicable as at the close of that Business Day. Withdrawal requests received after the Deadline on a Business Day will be treated as received on the next Business Day. Withdrawal requests for mFund investors are subject to different cut-off times. Please contact your broker for further information.

Your investment will normally be withdrawn and payment made into your nominated Australian bank account within 14 days of the receipt of the withdrawal request. However, the Constitution allows up to 21 days for such withdrawals and payments to take place.

If you have applied through an IDPS, please refer to the Fund's Additional Information Booklet.

Restrictions on withdrawals

In certain circumstances, such as when there is a suspension on withdrawals or where the Fund becomes illiquid (as defined in the Corporations Act), you may not be able to withdraw your investment within the usual period and alternative withdrawal procedures will apply.

Income distributions

Income distributions are generally paid six monthly as at 31 December and 30 June. The amount of the income distribution may vary and will usually consist of interest, dividends and net realised capital gains. The amount of the income distribution for the Fund is generally calculated by accumulating all income earned by the Fund for the period, taking into account taxable gains and losses, and then deducting all expenses incurred and any provisions that are considered appropriate to the Responsible Entity. The income to be distributed is then divided by the total number of Units on issue at the end of the distribution period to determine the cents per Unit distribution rate. All income distributions are paid in Australian dollars.

Income distributions must be paid to a nominated Australian bank account or reinvested. If no preference is indicated on your Application Form or if we do not have valid Australian bank account details of an mFund investor on file, income distributions will be reinvested.

New Zealand investors can only have their distribution paid in cash if an AUD Australian domiciled bank account is provided, otherwise it must be reinvested (refer to the New Zealand Investors' Information Sheet for further information).

The Fund's performance is available on our website (bennelongfunds.com).

Significant benefits

The significant benefits of investing in the Fund are:

- access to an actively managed share portfolio that aims to deliver above-benchmark returns over the medium to long term;
- provides exposure to small and micro capitalised companies;

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risks depending on the assets that make up that strategy. Assets with the highest long-term returns may have the highest level of short-term risks.

The risks specific to the Fund are outlined below. The Fund invests predominantly in Australian shares, a growth asset class which is susceptible to short-term volatility. The active approach of the BAEP team may result in differences between the performance of the Fund and the performance of the Benchmark. The Benchmark is disclosed to enable a performance comparison between the BAEP team and a well-known and widely recognised index.

No guarantee is provided on the performance of the Fund, that distributions will be made or that the capital value of an investment in the Fund will increase or be maintained.

Market risk

Past performance is not a reliable indicator of future performance. The investments of the Fund largely comprise exchange traded shares and related securities, the ownership of which carries an inherent risk element. Unit prices reflect the market value of the assets of the Fund and consequently may rise and fall in line with market variations.

Macro-economic risk

The general state of the Australian and international economies as well as changes in taxation policy, monetary policy, interest rates, currency exchange rates and statutory requirements are some of the factors which may influence the progress of financial markets and individual companies.

Company-specific risk

The progress of individual companies may be affected by changes in factors such as the competitive environment in which they operate, regulation, technology, personnel and consumer preferences.

Operational risk

The custody and investment administration of the Fund has been outsourced to Citigroup Pty Limited (Australian Financial Services Licence No.238098). The Responsible Entity is satisfied that Citigroup Pty Limited has in place adequate internal controls for its custody and investment administration operations. However, there still may be breakdowns in operations and procedures that cannot be prevented.

Regulatory risk

All investments carry the risk that their value may be affected by changes in laws, especially taxation laws.

Performance fee risk

The Responsible Entity and Investment Manager may receive compensation based on the performance of the investments of the Fund. These arrangements may create an incentive for the Investment Manager to make more speculative or higher risk investments than might otherwise be the case.

Concentration risk

The Fund's typical portfolio holdings of 15 to 40 securities represents high investment concentration. The lower the number of securities, the higher the concentration and, in turn, the higher the potential volatility.

Smaller company risk

Compared to larger companies, smaller companies may have access to more limited markets, products and financial resources and they may depend more on key personnel.

Shares in smaller companies may fluctuate more sharply in price than those of larger companies. Trading may also be less frequent and in smaller volumes and therefore they may be affected by a liquidity risk to a greater degree than shares in larger companies.

Liquidity risk

If a security is not actively traded, it may not be readily available to be bought or sold without some adverse impact on the price paid or obtained. In order to manage this risk, BAEP has liquidity criteria in place as part of its stock selection process and actively manages the purchase and sale of the Fund's assets.

In the case of a large withdrawal from the Fund, which may be holding less liquid assets, selling assets to meet a large withdrawal may result in a detrimental impact on the price received for those assets. In certain circumstances, to allow sufficient time for a more orderly liquidation of assets, we may be required to temporarily suspend withdrawals.

The Fund may invest in unlisted assets, which have a greater liquidity risk as opposed to listed assets.

Force majeure risk

Circumstances beyond our reasonable control may impact the operation, administration and performance of the Fund. Those include industrial disputes, failure of a securities exchange, fires, floods, hurricanes, earthquakes, wars, strikes, acts of terrorism, governmental pre-emption in connection with an emergency of state and pandemics.

General risks

The key risks of investing in managed investment schemes include:

- the value of investments will vary;
- the level of returns will vary and future returns will differ from past returns;
- returns are not guaranteed and investors may lose some of their money;
- laws affecting registered managed investment schemes may change in the future; and
- the relevant level of risk for each investor will vary depending on a range of factors including their age, investment timeframe, other investments and individual risk tolerance.

For further information about risks associated with investing in managed investment schemes, please go to ASIC's MoneySmart website (moneysmart.gov.au).

You should read the important additional information about investment guidelines, policy and labour standards, and environmental, social and ethical considerations before making a decision. Go to Section 5 of the Fund's Additional Information Booklet (available at bennelongfunds.com). This material may change between the time you read this PDS and the day you acquire the product.

6. Fees and costs

Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. You may be able to negotiate to pay lower fees. Ask the Fund or your financial adviser.

To find out more

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website (moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The table below shows fees and other costs that you may be charged. These fees and costs will be deducted from the Fund assets as a whole. You should read all the information about fees and costs because it is important to understand their impact on your investment. The information in the section below can be used to compare costs between different simple managed investment schemes. Taxes are set out in Section 7 of this document.

- ¹ Subject to the Corporations Act and the Constitution of the Fund, the management fee component of management fees and costs can be negotiated with wholesale clients. Please refer to the 'Differential fees' sub-section in the Additional Information Booklet for further information.
- ² All fees and costs in this section are calculated with reference to the relevant costs incurred during the financial year ended 30 June 2024. Please refer to the Additional Information Booklet for further information. Management fees and costs of the Fund as set out in this PDS are the additional fees or costs that an investor incurs by investing in the Fund rather than by directly investing in the assets. This includes components such as management fees, expenses and indirect costs. The management fee component is 1.20% p.a. (including GST net of reduced input tax credits) of the Net Asset Value of the Fund. There is a cap on the expenses recoverable each year from the Fund, which is currently 0.05% (including GST net of reduced input tax credits) of the Net Asset Value of the Fund and this is the amount included in the Management fees and costs. This cap can be increased in the future by giving 30 days' notice. Please refer to the Additional Information Booklet for further information.
- ³ The performance fee is 20% (including GST net of reduced input tax credits) of any amount by which the investment return of the Fund (before payment of the management fee) is more than the return generated by the Official RBA Cash Rate plus 5%, per annum. Please note the performance fee payable in future years may be higher than the estimate above in periods of strong performance by the Fund. The reasonable estimate of the performance fee is based on the average of the actual performance fees paid by the Fund over the previous 5 financial years. Please refer to the 'Performance fees' sub-section in the Additional Information Booklet for further information.
- ⁴ The transaction costs amount reflects the actual transaction costs not recovered by the buy/sell spread for the last financial year, including the Responsible Entity's reasonable estimates where information was not available as at the date of this PDS.

Additional fees may be payable to your financial adviser. See the boxed content in bold below.

Example of annual fees and costs for the Fund

This table gives an example of how the ongoing annual fees and costs in the Fund can affect your investment over a one-year period. You should use this table to compare this product with other products offered by managed investment schemes.

Example - Bennelong Emerging Companies Fund - Class A	Amount	Balance of \$50,000 with a contribution of \$5,000 during the year
Contribution fees	Nil	For every additional \$5,000 you put in, you will be charged \$0.
PLUS Management fees and costs	1.25% p.a. of the Net Asset Value of the Fund	And , for every \$50,000 you have in the Bennelong Emerging Companies Fund - Class A you will be charged or have deducted from your investment \$625* each year.
PLUS Performance fees	2.11% p.a. of the Net Asset Value of the Fund	And , you will be charged or have deducted from your investment \$1,055* in performance fees each year.
PLUS Transaction costs	0.14% p.a. of the Net Asset Value of the Fund	And , you will be charged or have deducted from your investment \$70 in transaction costs each year.
EQUALS Cost of Bennelong Emerging Companies Fund - Class A		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of \$1,750*. What it costs you will depend on the fees you negotiate.

* Additional fees and costs may apply. This example does not capture all the fees and costs that may apply to you such as the buy/sell spread. Also this example assumes the additional \$5,000 was invested at the end of the year. If it is assumed the additional \$5,000 was invested at the beginning of the year, the fees and costs would be \$1,925.00 (\$55,000 x 3.50%). This is an example only as the actual investment balance of your holding will vary on a daily basis.

Note that Government fees, duties and bank charges may also apply to investments and withdrawals.

Warning

Additional fees may be paid to a financial adviser if an investor consults one. Where an investor receives financial advice, investors should refer to their Statement of Advice or their adviser's Financial Services Guide for full details of these fees. The Responsible Entity does not charge additional fees to investors that invest via the mFund Settlement Service. However, additional fees may be payable to an investor's broker or other ASX approved participants for facilitating an investment or withdrawal in the Fund using the mFund Settlement Service. Investors should consider their broker's Financial Services Guide for further information.

Fee changes

The Constitution of the Fund sets out the fees and costs payable by the Fund. The Constitution of the Fund permits higher management fees and performance fees to be charged. The Responsible Entity can change the amount of fees without your consent, as long as it

does not exceed the amount of fees permitted under the Constitution of the Fund. You will be given written notice of any variation of fees charged by the Fund in accordance with the Corporations Act (for example, where there is an increase in management fees, performance fee, or charges, you will be notified 30 days before the increase takes effect). Changes to expenses within the cap, indirect costs, transaction costs and the buy/sell spread do not require prior notice to investors.

Fee calculators

ASIC provides a fee calculator on its MoneySmart website (moneysmart.gov.au) which can be used to calculate the effect of fees and costs on your investment balances.

You should read the important additional information about 'Fees and costs' before making a decision. Go to Section 6 of the Fund's Additional Information Booklet (available at bennelongfunds.com).
